Duke Energy:
HELP AVERT CLIMATE CHAOS ...
BEFORE IT’S TOO LATE FOR US ALL

Scientists say the climate crisis is close to a tipping point. Dramatic action must be taken. But Duke Energy is expanding its use of climate-wrecking “natural” gas from fracking and constantly raising rates. Clean energy solutions are cheaper and ready to go. Duke claims to be green – but is only 2% renewable. And its executives are blocking open discussion about NC Clean Path 2025.

Communities across North Carolina are already suffering repeated floods, fires, droughts and other effects of global warming.

You have a voice – use it now!

Tell Duke Energy CEO Lynn Good to cancel the Atlantic Coast Pipeline and help avert climate chaos instead of making it worse:
ceo@duke-energy.com, 704-382-7649, 526 S. Church St., Charlotte, NC 28202, and tweet @DukeEnergy with #ClimateAction
