

GOV. ROY COOPER, PLEASE STAND UP TO DUKE ENERGY!

***DUKE ENERGY IS TRYING TO CHOKe OUR
GROWING SOLAR POWER INDUSTRY –
SO IT CAN BUILD 50 FRACKED GAS UNITS...***

AND KEEP RAISING OUR RATES!

Solar energy helps us all by putting low-cost power on the grid, cutting climate pollution and adding good jobs. But Duke Energy “leaders” are trying to undermine our rooftop solar industry – the only competition to Duke’s monopoly control.

No wonder the state’s rooftop solar companies vigorously oppose Duke’s scheme – and 53 nonprofits are standing with them.

SPEAK OUT

TELL GOV. COOPER TO PROTECT ROOFTOP SOLAR:
Stop Duke Energy from choking our growing solar industry and making the climate crisis worse.
